Conformity Assessment Results

The target of the conformity assessment meets the criteria required under the regulation.

The target of the conformity assessment supports qualified signatures “on behalf of the subscriber” for their qualified certificates or any third-party qualified certificates that could be issued with QCP-n-qscd policy.

Appendix II

Conformity Assessment Target

Remote signing service IvSign, a key centralizing service and remote signing (Servicio de Centralización de Claves y Firma Remota IvSign), and the operational and key management processes necessary, provided by Ivnosys Soluciones as support service for the issuing of qualified electronic certificates for electronic signatures service. IvSign is a multi-CA system, it can use certificates issued by different CAs as long as they comply with the policies for this service.

As a result, Ivnosys Soluciones solution, as well as its key management procedures, supports qualified signatures “on behalf of the subscriber” for their qualified certificates or any third-party qualified certificates that could be issued with policies compliant with the service, and complies with the security and operational requirements stated in the standards against which the assessment was performed.
